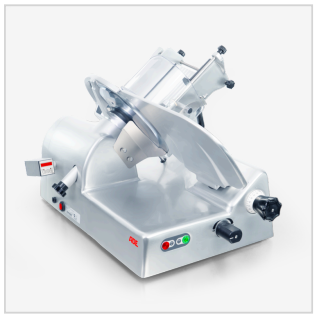
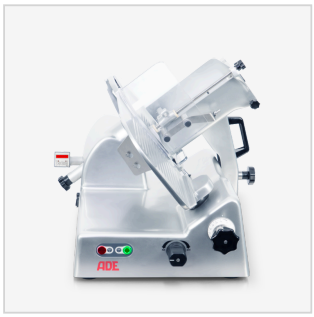
Automatic Gravity Feed Slicer

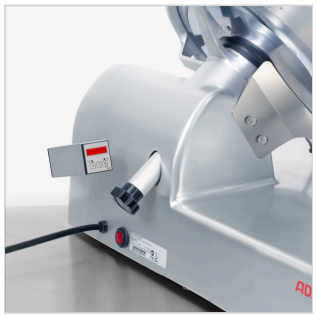
AUTOMATIC 330-Z

Ideally suited for manual or automatic slicing of sausage, ham, cheese, fresh meat and vegetables

Images







Functions

- Changeover lever for easy switching between automatic and manual operation
- Featuring gear transmission instead of a belt drive – for increased efficiency, reduced maintenance, and improved durability
- Automatic sled stroke (40 strokes per minute); manual operation is also possible for delicate materials
- Automatic material feed due to the sled's steep inclination
- Includes guide rail for securing the material to be cut
- Residue holder adjustable in three ways to accommodate various materials to be cut
- Robust housing and sled constructed from special anodized aluminum alloy
- High-performance motor
- Infinitely adjustable cutting thickness: 0 – 15 mm
- Easily removable sled for effortless cleaning
- A grinding device is included

Technical data

Blade - Diameter	**330 mm**
Blade - Blade Type	**2-Level Profile**
Carriage - Is Removable	✓
Carriage - Carriage types	**removable**
Operation	**Rotary Knob, Piezo Switch**
Cutting Area - Width	**245 mm**
Cutting Area - Height	**240 mm**
Cutting Area - Thickness	**0 – 24 mm**
Design Type	**Gravity Cutter**
Footprint Area - Width	**440 mm**
Footprint Area - Length	**560 mm**
Foot Type	**Suction Feet**
Has Air-Cooled Motor - Available	✓
Has Care Instructions - Available	✓
Has Integrated Guide Rail - Available	✓
Has Warning Notice - Available	✓
Manually Operable - Available	✓
Operating Time	**Continuous Operation**
Power Supply - Rated Output	**370 W**
Power Supply - Plug Type	**16a 5-Pin**
Power Supply - Power Source	**AC**
Power Supply - Voltage	**400 – 400 V**
Power Supply - Frequency	**50 – 50 Hz**
Recommended Area of Application	**Food**
Suitable Food Types	**Sausage, Cheese, Meat, Vegetables, Ham, Bread**
Surface	**anodised**
Counter - Available	✓
Strokes - per Minute	**40 – 40**
Strokes - length settings	**long**

Scope of supply

- machine
- manual
- sharpening unit
- oil bottle
